

REMARKS

Claims 1-55 remain in this application. Claims 24, 27, 35, 36, 41, 44, 47, and 48 have been amended. No new subject matter is believed to have been added by this Amendment.

While an Amendment Under 37 CFR §1.312 may not be entered as a matter of right, the Applicants believe that the Amendments to these claims require no substantial amount of additional work on behalf of the office and hereby request that they be considered and entered.

Dependent claim 24 has been amended to specify the “intermediate grease baffle channel height” as opposed to the “intermediate grease baffle height”. This Amendment is supported by the text in the last six lines of paragraph no. 48 in the Specification.

Claim 27 has been amended to merge subparagraph (d) and (e) for clarity.

Independent claim 35 has been amended to eliminate the term “quick connect” to describe the coupling. The Applicants believe that the features of claim 35 are patentably distinct whether the coupling is a generic coupling or a quick connect coupling.

Dependent claim 36 has been amended to further specify that the coupling may be a quick connect coupling.

Dependent claims 41, 44 and 47 have been amended to focus their dependency upon claim 37.

Claim 48 has been amended to include the word “and” at the end of subparagraph (d).

Reconsideration of claims 24, 27, 35, 36, 41, 44, 47 and 48 and allowance of claims 1-55 are respectfully requested.

Notice of Allowance dated January 7, 2005

Application No. 10/809,188

Amendment Dated March 23, 2005

Attorney Docket No. 0644-031737

Respectfully submitted,

WEBB ZIESENHEIM LOGSDON
ORKIN & HANSON, P.C.
